Responsive Instruction and Leadership Webinar Series: Braving a New Pandemic World

Faced with a global pandemic, educators and families must find novel and inclusive ways to engage one another and support student achievement. This four part webinar series will define the issues and offer solutions from practitioners and community members. Each webinar is sixty minutes allowing participants to get a robust, succinct, as well as interactive experience. The series titles include:

October 21, 2020 - *Flipping out! Best Practices for Instruction and Engagement for Digital or Hybrid Classrooms*

November 18, 2020 - *We are in This Together: Engaging Diverse Families*

January, 2021 - *FAPE, Complaints, COMP Ed, OH MY: Learn the Dos and Don'ts for Special Education*

May, 2021 - *The End of the Yellow Brick Road: What Should Educators and Families Consider as We Close a Very Unusual School Year?*

Webinar attendees will be able to identify strategic resources and tools to promote community collaboration and instructional achievement. **The webinar series is a member-benefit and free to all CEC members! The cost of each webinar for non-members is \$25.00.**

Flipping Out! Best Practices for Instruction and Engagement for Digital or Hybrid Classrooms

In a Pandemic World, educators must increasingly rely on alternative instructional methods. Flipped or virtual classrooms are two pervasive approaches. A “Flipped Classroom” model seeks to deliver the instruction before class through online videos, in order to free-up the in-class time for active learning and problem-solving activities. While a “virtual” classroom may provide instruction via phone or video, coupled with remote activities. This webinar explores the ways in which practitioners can navigate this digital instructional world. Participants will be able to identify key components and tricks to facilitate student success.
